Aeonvaults Consulting Safeguard

Fraud and financial crime are becoming increasingly sophisticated and globally organized. To stay one step ahead, we have series of initiatives that are designed to detect and deter fraudsters and criminals. In order for us to protect you and your finances, we need your help.

To ensure we really understand you we need to know who you are and where you live, where your money comes from and how you will use your accounts.

When you join us

When you open an account with us, the questions we ask will help us get to know you and protect you from financial crime.

Continual protection

Once your account is open, the systems and processes we utilize to keep you safe rely on us having the most up-to-date information. If your circumstances change, such as getting a new job or other big events in your life, please help us continue to protect you by letting us know. To assist in your continued protection from fraud and financial crime, from time to time we may ask you for your help and contact you to confirm or update your existing details, provide new information or provide original documents.

We understand that this may seem inconvenient, however we will work with you to ensure the process is as simple and straightforward as possible.

Identifying you

We need to know you

Whether you are opening an account with us today, or held accounts with us for a long time, we may need to see proof and take a copy of your identity and your home address. This is a legal requirement that helps us protect you from criminals who might use your name or information without your knowledge.

This information also helps us make sure we are offering you the products and services that are most suited to your needs. We will also ask you questions about yourself and how you plan to use the account. In some circumstances we will ask more detailed questions about your income and your wealth.

The documents you need to provide

We need to see two separate documents: one to prove your identity, the other to prove your home address, these cannot be the same document. For a list of acceptable documents, please see overleaf.

We prefer to see documents that are issued by an official authority and include a photograph so they cannot easily be forged, such as a passport, national identity card or photocard driving license. If you cannot provide one of these, please make sure your identity and address verification documents include your full first name as well as your surname.

If you are a student, you should look to provide the standard identification and address verification documents as listed. Where you cannot provide these, alternative documents can then be accepted as stated overleaf. This list is not exhaustive. If you are applying for our products from outside the UK but within the EU, you may need to provide certified documents as part of your application. If you have any queries about acceptable documentation, please write us.
